Lab Scale

**One Stop Solution to Conceptualize,
Design and Manufacture Advance Flow
Reactor for your challenging Chemistries.**

Pilot Scale

Specifications:

- ✓ Temperature: 60 to 250
- ✓ Pressure: up to 30 bar
- ✓ MOC options: SS316, Hastelloy C276, Inconel 600
- ✓ Pilot Scale : 50 ml Onwards & Production Scale 1000 ml onwards

Advantages:

- ✓ MOC options compatible to complete range of chemistries
- ✓ Scalability for laboratory, pilot and production requirements
- ✓ Customized Design for Pilot and Commercial scale requirements
- ✓ Spiral Arrangement inside the Jacket provide maximum Heat Transfer
